Sticky Knowledge

England men last won the World Cup in 1966. They have begun their campaign for the 2022 World Cup in Qatar – playing their matches in our Winter season.

Shooting can be done with **power** or **finesse**. To shoot with **power**, use your laces to **strike** the ball towards the **goal**.

You may need to use other parts of your body to **control** a ball if it is bouncing in the air. **Chest** and **thighs** are good body part to control these types of passes.

To **receive** a pass with **control**, use the inside of your foot. Moving forward to **meet** ball will help you keep **possession** and make you more **aware** of the **space** around you.
